Testimonial for 18 Hole Golf Services

There are a few people who will influence you, inspire you, and help lead you on your future path. Often this happens without them even realizing what they have done for you. For me Mr. Johnny Ganesan, the Chief Coach and Founder of 18 Hole Golf Services is one of those people in my life. He has made me believe that I am able to play golf passionately.

I started golfing in 1993 but by 1995 I literally gave up the sports. I am a left handed but all my previous coaches' evocated that I use a right hand club. I was not improving at all. I have approached many coaches to teach me but by the end of 2 years, I barely hit 100 meters. Neither could I handle the driver nor the wood. I would tee off and play with the 7 iron. It seemed boring and pointless to hit the ball over 18 holes and spent 5 hours on the course. I lost interest in golf and I never thought I would play golf again.

However 19-21 June 2010 changed my life. I was introduced to Mr. Johnny Ganesan. At first I was very suspicious with his 3 days resident course in Desaru Golf Country Club. I had my reservation but since many of my friends spoke highly of 18 Hole Golf Services, I decided to try again.

With his easy and comprehensive theory classroom lessons and expert advices I now have a great swing. Unlike the other coaches, he was the first to test me before decided whether I should use a left handed or a right handed club. After numerous tests, he was convinced that I am a thoroughbred lefty and I should optimize myself to use a left handed club. True to his prediction, I was hitting the balls neatly and squarely on the first day in the range. In just three days, I was able to hit the ball 120meters. It was really motivating and encouraging considering that I have never hit 120 meters. Moving on, I was able to handle my driver and woods in about 2 weeks.

The course was very comprehensive. Not only were we thought on the fundamental of a good swing. We were also thought on the golf etiquette and the rules of the game. This was really unique as no other coaches have ever thought me on the golf etiquette. A good example was "Ball" instead of "Fore".

The lessons also covered the design aspect of irons, woods and drivers. This included the understanding and the importance of a proper swing weight, swing speed, shaft materials, club designs and etc. Actually I felt proud when I was using the golf jargon such as D1 or C9 swing weight. Many experience golfers that I have met has never heard of these and it certainly made me look good. These theory lessons on designs helped me tremendously when I was choosing my new clubs. It saved me time, effort and money. Most of all, it prevented me from buying a wrong club.

What touched me most was that Mr. Johnny Ganesan followed me to the golf course once a week for 6 months to supervise me. He even spurred me on and accompanied me in the range work every week. Honestly, he does not have to do this. If it wasn't for his passion for teaching, I doubt he would do it.

Mr. Johnny Ganesan really stands out from the other coaches that I have seen. He is passionate about golf and has no qualms in imparting his secret knowledge. I give all my credit for my golf achievements to Mr. Johnny Ganesan. He taught me the proper grip, stance, swing and all other facets of the game. Not only is Mr. Johnny Ganesan an excellent teacher, he is a gentleman and most importantly a genuinely good person.

Yours Sincerely
